# VEGETINE

FOR EPILEPSY.

Barabo, May 15, 1877.

H. R. Stevens—Dear Sir: My husband has had Epitepsy for the past lifteen years. The cast winter his blood seemed to be in a bad condition, and seeing the good results from the use of Vegetine in others, felt anxious to try it. Has taken some six bottles, and the result has been, that he has had only ten fits in three montas pass; whereas, he was accustomed to having as many in two days at his worst, an effect that he did not expect. Am very anxious to have him continue the use some longer; and write you to ask you what terms, or what reduction you will make and send me one dozen bottles.

Very respectfully,

St. Vincent School, Troy, N. Y., Oct 5, 1871. Troy, N. Y., Oct 5, 1871. Dr. Strevens—Dear Sir. We are truly grate ut for your generous donation of Vegetine received lass evening. A lady has been using it here, with much benefit to herself, who, for years, has been gron uneed "broken down," "worn out," &c. Frequently she was disturbed in her sleep by a violent nervous twitching of a foet, or the face, or the whole body. By taking this Vegetine, she is enabled to slee quietly, and her general health seems much improved, though she has a complication of chronic diseases to contend with. May God bless you for your charity to the orphans.

Respectfully and gratefully.

Mr. STRVENS—Dear str: I have taken several bottles of Verettine for female weakness, and in justice to the medicine, and to all ladies who are sufferers from such complaints, I will recommend the Veretine. I must say it has helped me very much; indeed, it is invaluable for such complaints.

It invigorates and strengthens the whole system, acts upon the screetive organs, allars inflammation, cleaness and curve ulceration, cures constitution, regulates the bowels; headache and pains in the back cease; in ract there is no disease or complaint where the Versetine gives so quick relief, and it so effective in its curve, as in what is termed formale weakness. It has never failed in one instance.

Who for the first time have been in trouble, we would warn against the use of that vile drug, Balsam Copabia. It sickens the stomach, brings on weakness, deranges the kidneys, and is worthless as a cure; and to avoid this drug avoid the quack. Offers special inducements to Advertisers desiring to reach this class of people. It publishes and circulates more papers in Cincinnati and immediate vicinity than any other journal issned in this city. It is taken and read by people at THEIR HOMES; and for all classes of goods, where the Advertiser desires to reach the family, is more valnable, even in proportion to circulation, than a paper that is a favorite only in the counting-room. Its news covers the affairs of every day life, dressed up in such a manner as to be of special interest to the ladies; and its advertisements are therefore brought more conspicnously before them than is the case with any other paper in this city.
